About Us

Gowus Nigeria Limited (GN) is an indigenous Oil and Gas Company operating within the gas sector in Nigeria. Gowus Nigeria Limited incorporated by the Corporate Affairs Commission in 2013 was formed out of the need to create value and be more socially responsible to the entire citizenry of Nigeria.

We have developed our core expertise in the areas of power generation, electrical engineering, procurement, and the supply of natural gas and natural gas equipment. We have gained competence in the projects we have executed over time and are positioned to become a leader in the Nigerian renewable energy sector.

Our company offers products such as solar panels, inverters, natural gas generators, and its components. We also offer services such as the distribution of natural gas, procurement, and installation of oil and gas equipment, sale of Natural gas burners, and its accessories to clients for home and industry use.

Core Values

INTEGRITY

PROMPT DELIVERY

TECHNICALITY

EXCELLENT SERVICE

Vision

To be the preferred distributor of natural gas for domestic use in Nigeria through quality, convenience, and consistency.

Mission

To offer efficient engineering services and distribution of natural gas for domestic and industrial use to all our customers with at the highest safety standards and the best prices.

Management Team

MR. John **OWOLABI**
Chief Executive Officer

Mr Owolabi holds an HND degree in Business Administration from The Polytechnic of Ibadan, Oyo state. He wields vast experience in the oil and gas industry spanning over a period of thirteen years (13 years). He began his career with Texaco Overseas Nigeria Ltd as an Invoicing Officer and worked in this capacity for 2 years.

During this period, he contributed his lot in the integration of Chevron and Texaco Overseas records including technical and financial structuring and correspondence with technical partners especially

NNPC. CHEVRON: Mr. Owolabi later joined Chevron Nigeria Ltd in 2002 as Project Logistics Coordinator and moved up the ranks to becoming Contract and Compliance Analyst before his exit. It was during his time with Chevron that his full potentials were brought to a total bare, contributing immensely to the growth and success of several projects. Some of them include;

Management Team

ELERO CREEK RESTORATION: Haven been tasked with the duty of overseeing the revitalization of the Elero Creek restoration which had been impaired greatly from several acts of vandalism, Mr. Owolabi joined a team that proposed several models necessary to revive and restore the creek whilst putting in channels to secure it from future vandalism. He further effectively managed the Millions of dollars allocated to this project eventually seeing to a full restoration of the creek.

ESCRAVOS GAS TO LIQUID (1) AND (2): Mr. Owolabi also contributed his bit towards the successful coordination of the Escravos Gas to Liquid (GTL) project from the stage of contractors selection up to the stage of completion of Front-End Engineering Design. He was involved and in fact coordinated the evaluation of contractors for the project and bid evaluation which saw to the selection of preferred partners for the project. He was also involved in the liaison and alignment with the partner companies for the project including NNPC and Sasol.

Management Team

AGURA IPP: Mr. Owolabi was directly involved in the preliminary framing of the Agura Independent Power Project, a project carried out by Chevron as part of its Corporate Social Responsibility and support for the Federal Government's effort to improve energy in Nigeria. Mr. Owolabi saw to the smooth running of the project at its initial start-up phase and was responsible for the selection of contractors and bid evaluation.

AGBAMI PROJECT: Mr. Owolabi acted in a supportive role, provide auxiliary support for the review of contracts related to this project. He also provided professional services including Bid evaluation, project design, and compliance checking.

Mr. Owolabi has attended several certified pieces of training including the Sarbanes-Oxley Training Certificate, Lagos Business School/Pan-African University certificate for Time-Management. Mr. Owolabi has also received several awards recognizing his deep contribution towards the success of most of the projects affiliated with him especially during his time with Chevron Nigeria Limited. Notable among them is Chevron's certificate of Appreciation for his contribution towards the JDE 8.11 project and NMA GIL3 Project. His innate desire to affect lives and society influenced his drive towards the establishment of GOWUS Nigeria LTD and his sojourn into becoming an entrepreneur.

Management Team

MRS. Eniola **OWOLABI**
Executive Director

Mrs. Owolabi is a graduate of Mass Communication from the Institute of Management and Technology (IMT), Enugu State of Nigeria. She is currently enrolled in the graduate school of National Open University of Nigeria (NOUN) in view of her post-graduate diploma in Peace Studies and Conflict Resolution.

A natural entrepreneur and optimist, she envisioned and eventually floated Gowus Nigeria Enterprise in 2008, a business that dealt in the supply of goods and services and the major distributor of RareGems Jewelries, a business that would eventually provide the background for the birth of Gowus Nigeria LTD. A gifted orator and motivator, a philanthropist and reverent Christian, Mrs. Owolabi encapsulates the full characteristics of a leader, a nature she has fully brought to bear as the Executive Director, Business Services of Gowus Nigeria LTD. She is a loving wife and mother of three.

Management Team

Engr. Ademola **RAHEEM**
Consulting Partner

Engr. Ademola Raheem is a graduate of Electrical Engineering with special emphasis on power generation and distribution, power system protection, building electrical services, building management systems, heating ventilation, and air-conditioning as well as energy audit and metering systems.

He also has deep experience in utilities plants and equipment such as air compressors, vacuum pumps, steam boilers/generators, water treatment, chillers, and air-handling units for space conditioning. He is interested in combined heat and power (CHP/CCHP) generation and renewable energy systems. His career has taken him through power generation and distribution, building services, oil and gas as well as manufacturing industries.

**Natural Gas
Distribution**

02

**Engineering,
Procurement, and
Construction**

03

**Power Generation,
Gas Plant
Installation and
Management**

04

**Fuel to Gas
Engine Conversion**

05

**Transformer
Maintenance**

04

**Solar Panel
Installation and
Maintenance**

A large industrial facility, likely a refinery or gas processing plant, is shown at night. The scene is illuminated by blue and white lights, highlighting the complex network of pipes, scaffolding, and large cylindrical storage tanks. The sky is dark, and the overall atmosphere is industrial and modern.

Our Core Services

Natural Gas Distribution

To be the preferred distributor of natural gas for domestic use in Nigeria through quality, convenience, and consistency.

Our Core Services

Engineering, Procurement and Construction

We are an independent contractor for Engineering, Procurement, and Construction (EPC) including maintenance and project management.

Our services target private and government organizations especially project in industries such as power and oil and gas.

Our Core Services

Power Generation, Gas Plant Installation and Management

We understand the different requirements for facilities and tailor our solutions to solve power needs using CNG, Our major expertise is in the construction and maintenance of gas plants, supply of construction materials, and general project supervision.

Our Core Services

Fuel to Gas Engine Conversion

We convert fuel engines to gas engines for cars, generators, and all applicable engine types.

Our Core Services

Transformer Maintenance

We perform regular and systematic activities to ensure the optimal functioning, reliability, and longevity of electrical transformers.

Our Core Services

Solar Panel Installation and Maintenance

Our specialization ranges from project development, construction, financing to operations and maintenance of solar systems.

Our expertise focuses on the technical and economical optimization of the solar power plants.

Completed Projects

CLIENT	PROJECT DESCRIPTION	PROJECT STATUS	COMMISSION DATE
IHS	Solar structure installations across 100 telecommunication sites within Nigeria amounting to 375 structures	Ongoing	December 2023
CCECC Nigeria Limited, Lagos	The Provision and installation of Accessories at Aradagun Mosafejo-lledo-Imeke Roas, Streetlights and Others.	Completed	November 2022
Dpkay Homes and Property Limited	Construction of 3MW Independent Power Plant for 1000 housing units	Completed	December 2021
Dunamis International Gospel Center	MV LV power upgrade system comprising of 4 nr 1MVA transformers, synchronisation panels, HV and LV cables. HVAC commissioning and 100KVA emergency online inverter backup system.	Completed	November 2021
Grenadines Homes	Electric Generator Servicing And Maintenance Services	Completed	October 2020
Ministry of Infrastructure and Public Utilities, Ekiti State	Energy Audit Exercise for the existing government institutions; ·-Ekiti State University (EKSU) ·-Ekiti State Teaching Hospital (EKSUTH), Ado Ekiti ·-Ekiti State Government House ·Ikogosi Warm Spring ·-College of Education, Ikere Ekiti ·-Government Technical College, Ado Ekiti ·-College of Health Technology, Ijero Ekiti	Completed	November 2019

Completed Projects

CLIENT	PROJECT DESCRIPTION	PROJECT STATUS	COMMISSION DATE
Canan Land City	EPC CONTRACT- Procurement & Installation of Gas Booster Compressor (GBC)	Completed	February 2017
Canan Land City	EPC CONTRACT Construction of CNG Downloading Station	Completed	February 2017
Canan Land City	Procurement & Installation of Pressure Reducing Metering System (PRMS)	Completed	February 2017
Canan Land City	Procurement, Supply & Installation of Natural Gas Fire Engine; (1.2MW by 5)	Completed	February 2017
Coleman Wires & Cables	Procurement & Installation of Gas Fire Engine -3 MW	Completed	December 2016
Property Mart	Procurement & Installation of Gas Fire Engine -7 MW	Completed	November 2016
